

Attention Business Owners and Human Resources Managers

Are good employees hard to find and hire?

Are you looking for committed employees for your business?

The Fresno Rescue Mission Career Employment Services Program can help!

What is the Career Employment Services Program?

The Fresno Rescue Mission oversees a re-entry employment program, Career Employment Services (CES), for the men and women it serves. The goal of the re-entry program is to train men and women to become productive members of society, building character and a sense of commitment and consistency. The CES program provides job readiness workshops to prepare them for employment. Once they have completed the program, they are ready to get to work! This successful program has been in place for several years and we have helped both employers and our clients make a difference in our community.

How can the CES Program benefit you?

1. Your business may qualify for both state and federal financial incentives.
2. You will have access to trained and committed employees that will represent your business in a positive and professional manner.
3. You will receive ongoing employer assistance, engagement and support for all CES workers hired.

What can you do?

The Fresno Rescue Mission is inviting you to be our guest at a **complimentary** breakfast to learn about how your organization can benefit from this program while encouraging self-sufficiency and independence in the lives of many people in our area. We have countless success stories and we believe in our men and women... we think you will believe in them too! Come join us!

Ramada University, Fresno
Shaw Avenue at Freeway 41

Thursday, February 11th
7:30 – 9:00 Continental breakfast

Presentation starts at 8:00 a.m.

A representative of the Fresno Rescue Mission will contact you to confirm your attendance. However, if you'd like to RSVP, please call 268-0839 or e-mail dtorres@fresnorescuemission.org.

Thank you in advance for helping to restore families and assisting men and women become productive members of society. *"We believe in the hope that every man and women can put behind them the mistakes and fears that keep them from moving forward towards a positive, fruitful life!"*
